

LEGEND

- Existing bedrock wells
- Piezometers installed during DNAPL characterization study

Note

- 1) Constituent values are depicted using a log scale.
- 2) ND = No chlorobenzenes were detected.
- 3) Total chlorobenzenes = sum of analytical concentrations for chlorobenzene; 1,2-dichlorobenzene; 1,3-dichlorobenzene; 1,4-dichlorobenzene; and 1,2,4-trichlorobenzene.
- 4) Results from duplicate samples were averaged.
- 5) NS-L = Not sampled or sample jar was lost.
- 6) No recovery = Core barrel recovered no soil from this depth interval.

AERIAL AND VERTICAL DISTRIBUTION OF TOTAL CHLOROBENZENES IN SHU, MHU, AND DHU Remedial Investigation Report

Sauget Area 1
Sauget and Cahokia, Illinois

GSI Job No.	G-3385	Drawn By:	CDM
Map ID:	000_04	Chk'd By:	TYT
Issued:	25-May-12	Apr'd:	JAK
Scale:	As Shown	Figure 4-4
